## Duropal

Duropal is a high pressure laminate (HPL). It can be used for shelves, fronts and furniture as surface or edge material."Fine Grain" and "Illusion" are the names of the two new surfaces that Duropal, the expert in high–pressure laminates (HPL), has developed. "Fine Grain" is a highly matt addition to Duropal's product portfolio, and appeals due to its tactile grainy effect. "Illusion" by Duropal consists of gentle waves on an absolutely level surface, creating an optical depth of several centimetres. Available in size 4100x1300mm.
