Chopped cans

Copped cans designed by Fabrice Covelli. A decorative and translucent panel made from scrap metal from various can such as Beer and soda cans which are chopped for recycling. Once embedded in resin they will create a solid panel to be used for counter or table top designs. Than eventually return to their original consummation area.
Fproduct is a line of playful objects designed and developed by Fabrice Covelli for private or public spaces.

Material prices and Sample prices upon request.
