Ringmesh

Create a fireproof curtain that is easy to clean and hygienic with Ringmesh. This material forms a very flexible steel or copper mesh existing out of welded rings that are attached to 4 other rings. Any picture can be realized on the mesh because of the possibility to perform each link in a different color. It is resistant to acids, salt water and UV radiation. Ringmesh is standard produced in stainless steel and copper. It can be delivered in large seamless surfaces. Applications can be for interior design such as lamps and curtains. Ringmesh is available in 2 standard sizes with a diameter of 7 −12mm.
