Dream 11

These colourful, light and flexible fabrics are made of pure metal. Dream 11 is available in stainless steel, brass, copper and coloured copper with a width of 100 cm (39"). These fabrics, when made entirely of stainless steel or brass are incombustible with Class A1 (all according to the Decision 96/603/CE of the European Commission). Therefore they can be safely used for curtains, panels, sofas and chairs. The metal mesh can be easily modelled by hand in order to create three−dimensional shapes.
