Awakyuki − Melting Snow

Awayuki – Melting Snow by Wood &Washi will remind you of melting snow on a beautiful spring morning. This extraordinary paper was designed exclusively for Wood &Washi by the Japanese artist Kyoko Ibe. The textured white surface of the paper creates fascinating light effects and a pleasant warm ambiance in any room. All Woodpapers are made using original Japanese paper, which is produced from all−natural materials, such as hemp fibre and the leaves and bark of the mulberry tree. Additives are used to add colour to the paper. The papers are colourfast, and reinforced with a special laminate coating to be made into window shades and screens. Choices in inlaid wood for ribs in the panels are: Cherry Matured, Oak Rift Grey, Zebrano, Zebrano White Wash, Smoked Oak Limed, Walnut Crown, Wengé Crown Sandblasted and Indian Apple. Aluminium, stainless steel and chrome ribs are also available, and the aluminium ribs also come in black, bronze and gold.
