Xorel

Xorel is a woven textile, with all the high performance characteristics emanating from the yarn. The yarns are naturally non−absorbent and permanently repel stains. Furthermore, Xorel is anti−bacterial, anti−fungal and anti−staph by nature. It meets very high standards for durability, flammability, indoor air quality and the environment. No finishes, nor coatings are added to enhance performance. Xorel is suited as a directly applied wallcovering, wrapped panel material or upholstery. A variety of high performance backings are offered depending on its end use. Xorel textiles are available with a variety of design techniques, including jacquard weaving, embossing, embroidery and graphic printing. Xorel has Cradle to Cradle Silver Certification and in addition has achieved Gold Indoor Air Certification from SCS.
