Proyecta

Proyecta is a durable porcelain tile with high strength as well as resistance to stains, abrasion, thermal shock, frost, acids and alkalis. The range of colors is inspired by natural stone and all colors are available in two finishes: natural and bush−hammered which fulfil different anti−slip requirements. The basic formats, 60cmx60cm, 30cmx60cm and 30cmx30cm, can be matched with a variety of trim pieces. Proyecta and Rosa Gres products are Cradle to Cradle silver certified. Proyecta can be used for indoor or outdoor applications and its high strength and resistance meets regulations for use in industrial applications.
